

Let GoLite do the Lifting

The GoLite™ Portable lift allows you to load and unload your lightweight foldable mobility scooter or power chair in and out of your vehicle with ease. It's compact and lightweight, yet powerful enough to lift up to 100 lbs. It fits easily in the trunk, hatch or even the backseat of most vehicles, making it an ideal addition to your mobility equipment.

It is affordably priced with features like easy-lift handles, quick release brakes, a built-in battery in a stand-alone design enabling easy transport between vehicles.
