

PLUS 3

Luggie[®]

Our dream has always been to make mobility devices that are safe to ride and convenient to repair. Our mobility devices come with all of FreeRider's practical innovation, signature technologies and we have been able to redefine what is possible for the mobility device users in the world.

In creating the advanced Luggie, we call this new series Luggie Plus. We made this dream come true.

Luggie Plus 3 is greatly enhanced with improved riding experiences. The main features of Luggie Plus is the smaller turning radius with golden safety ratio designing.

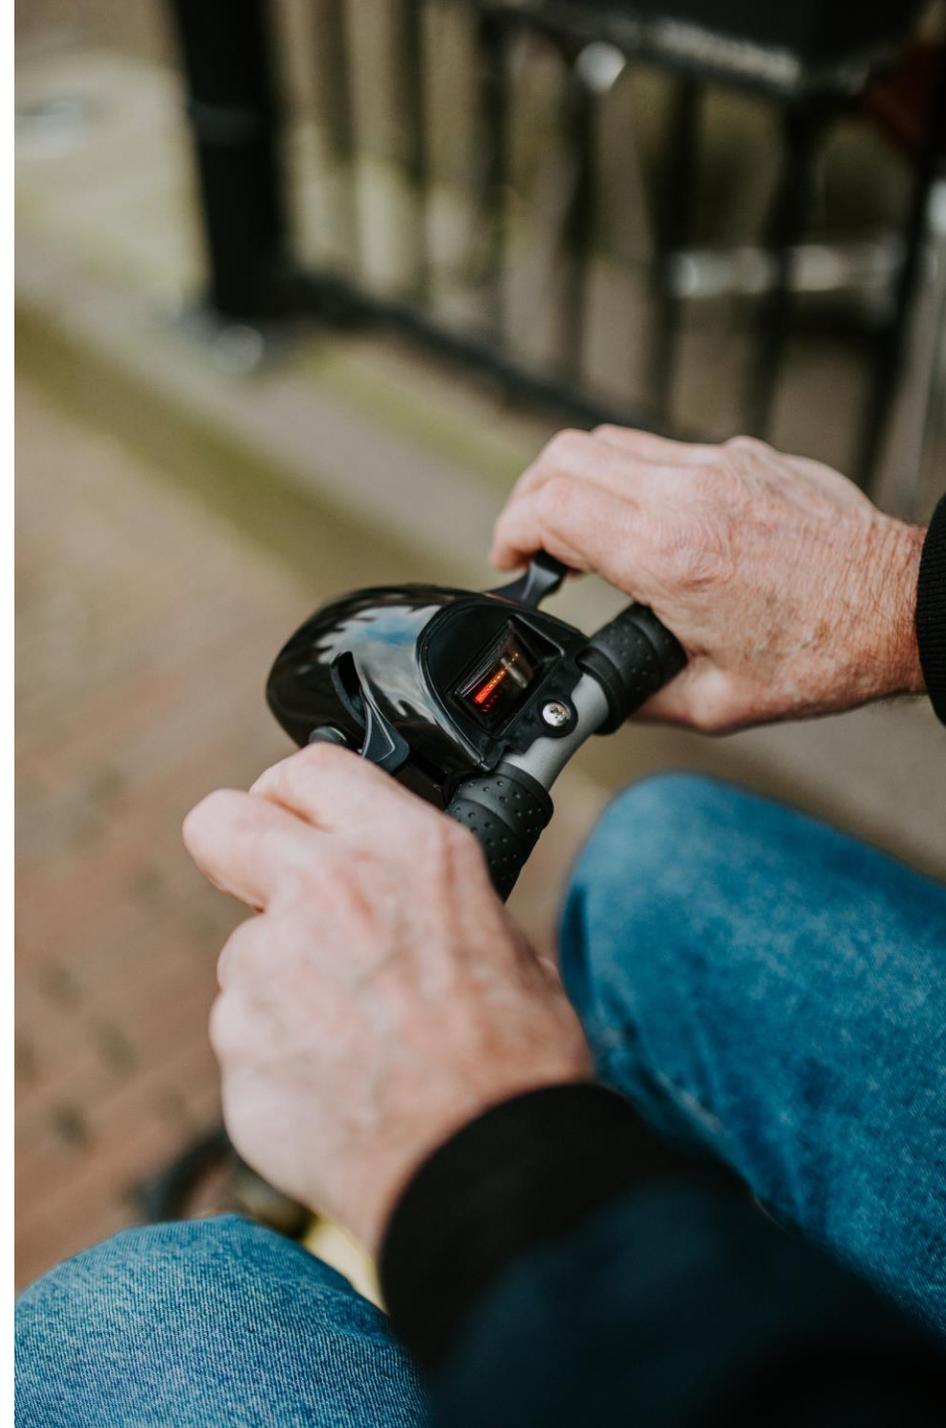

In addition, reducing riding vibration, increasing grip capability, and longer riding distance and increased the speed. Luggie Plus offers you unprecedented control performance.

PERFORMANCE MATTER

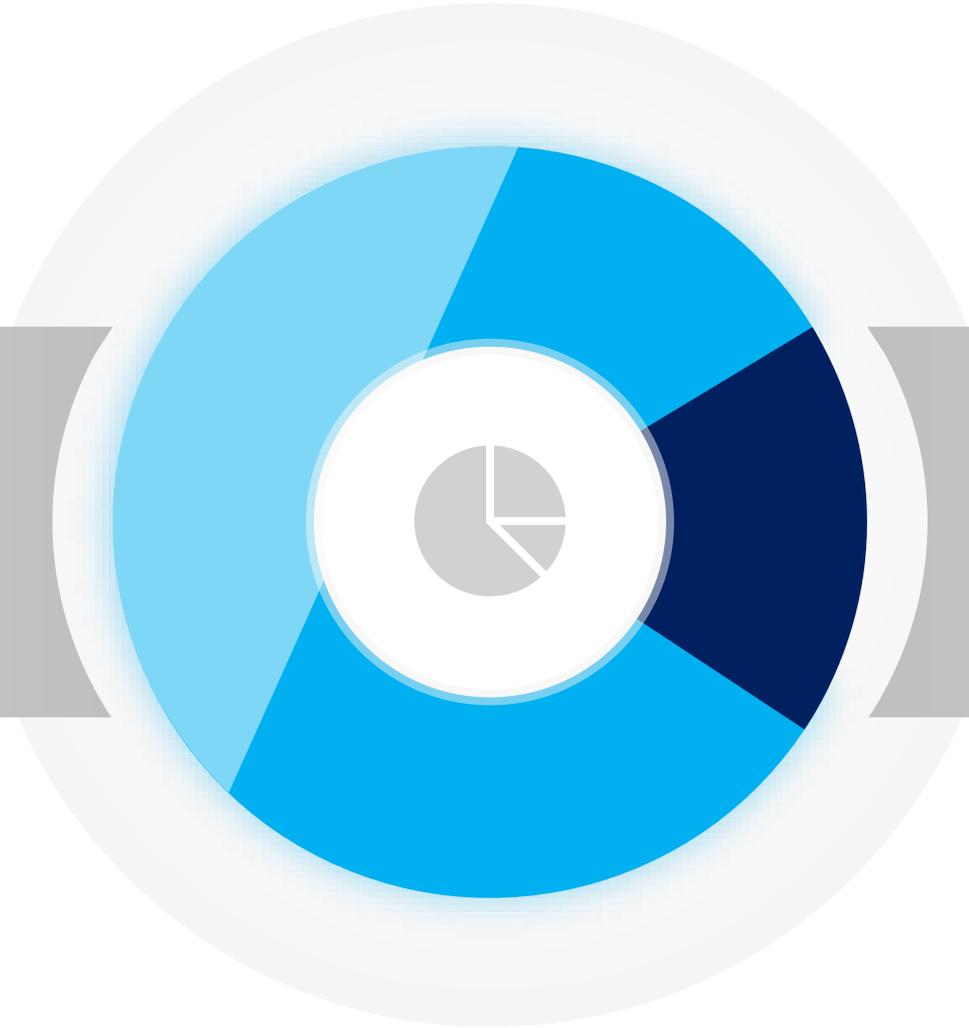

Luggie Plus 3 series is designed for more performance and stunning appearance. Today, the passion is infused into very DNA of Luggie Plus.

Just like the Mercedes comes out AMG series to those focus on more responsive performance and more power when they handle their steer in their chamber.
